Reference for Shade Protection

Peter did his first shade instalation for me at my kura in 2006.

His company had been referred to me by a neighbouring school. Since then I have had three other shades erected including a large shade for a performing arts stage, a covered walkway and an outside recreational area. It has been an absolute pleasure dealing with Peter's Shade Protection company over this period of time. I have found them to be consistently professional, timely and efficient in their service. In addition his reliability and friendliness is first class. I am pleased to recommend Shade Protection to the highest possible extent.
